Weill, G., 349
Wetton, R. E., 219
Woodworth, R. C., 599

Zanina, A. S., 215

SUBJECT INDEX

ABS, 447
ABS-polycarbonate, 447
Adsorbed layers of graft copolymers, 381
Absorption of macromolecules-theory, 393
Adsorption of polymer mixtures, 369
Alkyllithium-alkyl halide catalyst, 169
Aluminum filled graft copolymers, 453
Antithixotropy, 503

Blends, 447
Block copolymers-styrene-butadiene, 459
Bonding to cellulose, 533
Brownian motion of chains in solution, 93

Cellulose, 533, 543
Cellulose-crosslinkeds, 509
Cellulose triacetate, 17
Circular dichroism of polynucleotides, 633
Coefficient de diffusion, 109
Conalbumin, 599
Conduction processes, 181
Conductivité de l'ovalbumine, 195
Conductivité des polyamides, 205
Conductivité des polymeres, 195
Conductivity of poly (1,2-Di) (4-ethynylphenyl)ethane, 215
Configuration base pairing, 667
Conformational states of biological macromolecules, 615
Conformations of polynucleotides, 633
Copolymers of methyl acrylate-methyl methacrylate, 233
Copolymers of poly(isobutylene)-poly(styrene), 57
Copolymers styrene-butadiene, 459
Cosolvent solutions, 69
Critical solution temperature, 1
Crosslinked densities, 471
Cryoprecipitation, 697
Crystallization of cellulose, 543

Denaturation, 657
Deoxyribonucleoprotein, 657
Deoxyribonucleoprotein from sea urchin sperm, 657
Differential scanning calorimetry, 509
Diffusion de la lumiere par solution des poly(vinyl-2-pyridines), 125
Dimensions de chaines macromoleculaires, 9
Dipole moments and molecular structure, 233

Enzymes, 607
Enzymes-covalently bound to polymers, 607
Expansion of a coiled polymer, 105

Friedel-craft polymers, 147
Flow properties of melts, 399
Frictional coefficients of Poly(α-methylstyrene), 85

Gel permeation chromatography, 157
Glass transition-molecular structure, 573
Glass transition temperature, 407
Graft copolymers, 453

Interfacial energies—effect on the mechanical properties of composites, 415

Kerr effect, 349

Light scattering of mucins in solutions, 117
Lignins, 521

Mechanically induced phase transformations, 289
Methyl acrylate, 233
Methyl methacrylate, 233
Microstructure of polymers, 135
Molecular motion in polycarbonates, 551
Molecular relaxations in polyesters, 219
Molecular weight distribution in lignins, 521
Moments dipolaires et temps de relaxation du poly-L-glutamate de benzyle, 77
Morphologie du naissant, 311

Network chain density of natural rubber, 491
Nitrogen mustard on T7 coliphage action, 683

Orientation of single crystals, 349

Photoconduction polymers, 261
Photoconductivity of polymeric acetylenides, 673
Polarization of fluorescence, 99
Poly (-α-methylstyrene), 85
Poly(butadiene), 169
Polycarbonates, 551
Poly (dl-phenylalanine), 77
Polyethers, 219, 407
Polyethylene, 311
Polyethylene-acrylic acid copolymers, 453
Poly(ethylene terephthalate) 271, 399
Poly [(1,2-DI) (4-ethynylphenyl) ethane], 215
Poly (isobutylene), 57
Poly-1-glutamate de benzyle, 77
Polymer adsorption, 361
Polymer-solvent interaction, 17
Polymerisation de polyethylene sur trichlorure de vanadium, 311
Polymerization of polybutadiene, 169
Polymerization of styrene, 163
Polynucleotides, 633
Poly(styrene), 57, 611
Polystyrene-rubber modified, 437
Poly(trans-1, 4-isoprene), 329
Poly(vinyl chloride), 561
Poly(vinyl-2-pyridine), 125
Poly(vinyl-4-pyridine), 195
Positron states in solid polymers, 195
Protein unfolding, 705
Protein human L type Bence-Jones, 689

Reverse dye partition, 705
Rheo-optical measurements, 459
Rubber-modified polystyrene, 437

Specific heats of poly(vinyl chloride), 561
Specific volumes of polyolefin melts, 415
Spectral absorption properties of conalbumin, 599
Spherulitic growth rates in poly(trans-1, 4-isoprene), 329
Spherulitization of polyethylene terephthalate, 271
Stability of biological macromolecules, 615
Structure of Friedel-craft polymers, 147
Swelling rates, 471
Supermolecular organization of fibers, 305
Supermolecular physics, 261

The morphology of crosslinked addition polymers, 339
Thermal denaturation of proteins, 705
Thermal properties of crosslinked polymers, 485
Thermodynamics of binary polymer-solvent systems, 47
Thermodynamiques proprietes de melanges, 9
Thermoluminescence and electric conductivity, 243

Yielding of ABS, 447
Yielding of ABS-polycarbonate blends, 447
